PREMIER LEAGUE PRIMARY STARS

Premier League Primary Stars

We collaborate with the Premier League to implement various programmes in schools that foster the development of students. Our approach involves leveraging the influence of sport and Mansfield Town to interact with pupils across diverse aspects of the curriculum.

The Premier League Primary Stars is a nationwide educational initiative that is closely integrated with the school curriculum and administered by the Premier League and professional community organisations. Its aim is to motivate children to become physically active and engage learners.

Our school support services include providing PE teacher assistance to help educators gain expertise and comprehension in conducting PE lessons, which ultimately enhance the learning and development of their students. Additionally, we offer interventions in reading, writing, and maths to provide extra academic support to pupils who may require it.

We are thrilled to announce the launch of our latest social action project called 'Blue + Yellow = Green' this year. The initiative will concentrate on sustainability and the environment, offering students an opportunity to understand the significance of the environment and the actions they can take as individuals.
